

## ECULMB 2-STROKE EFI

ECUS FOR 2-STROKE FUEL INJECTED ENGINES

**APPLICATIONS:**  
KTM EXC TPI 250-300  
HUSQVARNA TEI 250-300

### INCLUDED IN THE KIT

- WIFI-COM
- MAP SWITCH

This ECU maximises the performance of the engine by improving the power and throttle response. Furthermore it is possible to reprogram the ECU map configuration via the WiGET app also on specific break-points.

### KEY BENEFITS

-  **2 PREINSTALLED RACING MAPS**
-  **PLUG & PLAY**
-  **GPA TRACTION CONTROL**
-  **PROGRAMMABLE THROUGH APP**

## RX1 EVO-E

ECUS FOR 4-STROKE ENDURO ENGINES

**APPLICATIONS:**  
KTM EXC-F 250-350-450  
HUSQVARNA FE 250-350-450

### INCLUDED IN THE KIT

- WIFI-COM
- MAP SWITCH

RX1 EVO-E is the perfect mixture of technology and flexibility; plug&play on standard engines and completely reprogrammable, comes with 2 maps developed to maximize the performance of a standard engine configuration, also with racing exhaust.

### KEY BENEFITS

-  **2 PREINSTALLED RACING MAPS**
-  **PLUG & PLAY**
-  **GPA TRACTION CONTROL**
-  **PROGRAMMABLE THROUGH APP**
-  **BAROMETRIC SENSOR**

## ECULMB 4-STROKE FOR BETA

ECUS FOR 4-STROKE FUEL INJECTED BETA ENGINES

**APPLICATIONS:**  
BETA RR 350-390-430

### INCLUDED IN THE KIT

- WIFI-COM
- MAP SWITCH

For riders who need a top level ECU with the highest technology available, the ECULMB is a highly versatile and professional product allowing the maximum personalization on settings and adjustments.

### KEY BENEFITS

-  **2 PREINSTALLED RACING MAPS**
-  **PLUG & PLAY**
-  **GPA TRACTION CONTROL**
-  **PROGRAMMABLE THROUGH APP**

## CDI 2-STROKE

CDI UNITS FOR 2-STROKE MX ENGINES

### INCLUDED IN THE KIT

- MAP SWITCH

GET is back in the 2-stroke world with its range of CDIs for the optimum management of the ignition curve and the maximization of power on carburettor bikes.

### APPLICATIONS:

KTM SX 65 - 85 - 125 - 250  
HUSQVARNA TC 65 - 85 - 125 - 250  
YAMAHA YZ 65 - 85 - 125

### KEY BENEFITS

## LC-GPA

LAUNCH & "TRACTION CONTROL" DEVICE

PERFECT FOR MOTOCROSS

Everybody agrees that good starts are key in motocross races. LC-GPA is then the essential device for motocross riders. It combines the GPA patented technology ("traction control") with an extremely efficient Launch Control electronic strategy.

### KEY BENEFITS

## GPA SWITCH

"TRACTION CONTROL" DEVICE

PERFECT FOR ENDURO

The GPA SWITCH is the best ally for Enduro riders. Uncomplicated, straightforward, indestructible, it allows modulating in real-time up to 10 levels of our sophisticated and patented "GPA power assistance" technology.

### KEY BENEFITS

## RX1 PRO

ECUS FOR 4-STROKE MX ENGINES

### INCLUDED IN THE KIT

- WIFI-COM
- MAP SWITCH

RX1 PRO is the new GET ECU for the 2018 and 2019 4-stroke engines, the perfect mixture of technology and flexibility; plug&play and completely reprogrammable, comes with 2 maps developed to maximize the performance of a standard engine configuration, also with racing exhaust.

### APPLICATIONS:

KTM SX-F 250-350-450  
HUSQVARNA FC 250-350-450  
HONDA CRF 250-450  
SUZUKI RM-Z 250-450  
KAWASAKI KX-F 250-450  
YAMAHA YZ-F 250-450

### KEY BENEFITS

## WIFI-COM

WIRELESS ECU CALIBRATION DEVICE

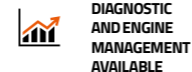

GET provides all riders with a smart device that allows the modification of the main engine parameters by simply using a smartphone or a tablet thanks to the WiGET app, available for iOS and Android systems.

WiGET APP

### KEY BENEFITS

## MAP SWITCH

Water and dirt-proof, this switch allows you to change engine map on the fly! This switch allows you to change engine behavior between two map configurations.

### KEY BENEFITS

## PRO FACTORY KIT

RX1 PRO ECU + SECOND INJECTOR KIT

FOR MOTOCROSS

### INCLUDED IN THE KIT

- WIFI-COM
- MAP SWITCH

This racing kit has been developed to optimize the flow of fuel at mid and top range, guaranteeing better performance. It's developed for 250cc applications and takes the most out of the engine without compromising the reliability.

### KEY BENEFITS

## ECULMB 2 STROKE EFI RACE KIT

ECUS FOR 2-STROKE FUEL INJECTED ENGINES + INJECTORS SUPPORT KIT

FOR ENDURO

### INCLUDED IN THE KIT

- WIFI-COM
- MAP SWITCH

With this race kit the injectors will be moved between cylinder and throttle body, allowing a huge power increase, especially at low/medium RPM, and a totally smoother rideability.

### KEY BENEFITS
